

## COVID-19 Updates & Important Information

~JANUARY 19, 2021~

### Health Department Launches Online COVID-19 Vaccine Pre-Screening Survey; Adds Adults 65 to Phase 1b

The Loudoun County Health Department has launched an online pre-screening survey for COVID-19 vaccinations.

All individuals and organizations in Loudoun in the Phase 1a and Phase 1b priority groups are now required to submit an [online pre-screening survey](#). Requests for

vaccine will no longer be accepted by email, as previously announced. Only those who do not have access to the internet may call the Health Department's COVID-19 information line, [703-737-8300](tel:703-737-8300).

Adults 65 and older have been moved into Phase 1b in the Commonwealth of Virginia's vaccination distribution plan. People aged 16 through 64 years with a

high-risk medical condition or disability that increases their risk of severe illness from COVID-19 have also been moved into Phase 1b.

It is important to note that supplies of vaccine in Loudoun remain limited. There are significantly more requests for vaccine than there are vaccine doses available. As a result, the Health Department cannot schedule additional appointments at this time; however, the online pre-screening survey may be submitted by people in Phase 1a or Phase 1b and when additional vaccine supplies arrive in Loudoun, additional appointments can be offered.

## **COVID-19 Vaccination Registration Update: Limited Vaccine Supply; Limited Appointments Available**

During the first week of the expansion of vaccination efforts into [Phase 1b](#) of Virginia's vaccination priorities, the Loudoun County Health Department has received more than 50,000 inquiries regarding appointments for vaccination.

At this time, all currently available vaccine doses in Loudoun are allocated to individuals who are included in the Phase 1a or Phase 1b priority groups, and vaccination continues on a daily basis. As a result, there will be a delay in making additional appointments for those who have completed the pre-screening survey until more vaccine arrives in Loudoun.

Based on current vaccination deliveries, the Health Department anticipates it may take eight weeks or more to vaccinate most of the people in Loudoun who are in the Phase 1b priority group with both doses.

## Important Information about Appointments for Second Doses of Vaccine

Individuals in priority group 1a and 1b who have received their first doses of the COVID-19 vaccine and have an account in the online vaccine appointment system are encouraged to log back into the system to schedule an appointment for a second dose when one becomes available.

Individuals who cannot access the system or who scheduled a first appointment over the phone will need to schedule their second dose by phone as well. We ask for your patience as we work through scheduling those appointments in the coming weeks.

## Loudoun County Continuum of Care to Conduct Annual Point-in-Time Count

The Loudoun County Continuum of Care (CoC), along with jurisdictions that make up the Metropolitan Washington Council of Governments, is preparing to conduct the annual Point-in-Time (PIT) Count of people who are experiencing homelessness. The count is scheduled to be conducted the night of Wednesday,

January 27, 2021. In the event of inclement weather, the count will be conducted Wednesday, February 3, 2021.

During the count, members of the CoC will canvass the county to assist anyone who is unsheltered by sharing resources. The count will be conducted safely following Centers for Disease Control and Prevention guidelines to reduce the spread of COVID-19, including wearing face coverings and practicing social distancing.

To get connected to health and human services information and resources in Loudoun County, including coordinated entry for housing and homeless assistance, contact the Loudoun County Information and Referral program at [703-777-0420](tel:703-777-0420).
